Allergen Guide

AUGUST 2024

At Denny's, we understand that each guest may have unique concerns about their food choices. That is why we provide the most current allergen information and update this guide periodically.

PLEASE NOTE:

- We season our grills with vegetable oil from our fryers and with bacon. Vegetable oil includes but is not limited to soybean, canola and cottonseed oils.
- Our tomato sauce contains pork and chicken.
- Our bourbon sauce contains beef.
- Our gravies are made in the traditional method which includes using meat drippings. These include our country and sausage gravies.
- This allergen guide provides an overview of the FDA's top 9 allergens, plus gluten.
- The information in this guide is provided by our ingredient suppliers and pertains only to our main menu. The guide does not include limited time offers, test menus or isolated local menu offerings.
- Due to shared preparation and cooking areas in our kitchens and the risk of cross-contact, we cannot guarantee that any item is free of any allergen.
- This guide pertains to the contiguous United States only. Does not include Alaska or Hawaii.
- We encourage any guest with special dietary needs to speak with the manager of the restaurant they are visiting or to contact us at 1-800-733-6697.

Key

X - Contains this allergen

 - May contain this allergen or is processed in a facility or on equipment with this allergen

To designate type of fish or tree nut allergen in food item, the following code will be used in lieu of the "X":

FISH / SHELLFISH A = Anchovies SM = Salmon TREE NUTS
CO = Coconut
